„X" TYPE SUPER THIN DIAMOND CUTTING AND GRINDING DISC

PRODUCT FEATURES

Designed for making precise cuts with smooth edges, chamfering at a 45° angle and grinding. The special design of the disc and diamond rim guarantees the highest quality and cutting efficiency, increased work efficiency, accelerates cooling and minimizes the risk of chipping the edges/surface during cutting. Perfect disc for cutting hard ceramic tiles and natural stone tiles, i.e.: tiles, stoneware, marble, granite, etc. Designed for dry and wet cutting. Made of: the highest quality technical diamond, hot pressed.
